Development Areas

Please think of a situation where Marcus failed to achieve the objectives and what in your opinion were the key reasons?

Marcus is always keen to help, he sometimes taken on more than he can deliver. One of his colleagues had to take an emergency leave to attend to a family situation, Marcus volunteered to fill the gaps without realising that he actually did not have enough capacity to do 2 jobs at one time.

He always intends well for the team but in these situations, Marcus needs guidance.
